Ray,

Can we set up a time to talk today about the Tower Standard task order (and all the other work that needs to be obligated by 6/30)?

Sherry

Ray's message to the regions about using LUST money is below.

I can already hear the wailing and gnashing of the teeth! Including mine...

Hey there,

The headquarters contract's group issued a memo that requires us (collectively) to get all new task orders using "old LUST money" from previous BERS contract period of performance and new money to the contracts group by June 30, 2016.

The rationale is that contracts needs to prioritize all the work including making sure all expiring money is obligated in time. We all know LUST is no year money but the process to transfer money from one period to another "ropes" us into the tight deadline.

Please call me on Thursday, June 2 so that we can discuss further.
